February 8, 2021

The Delaware National Bank of Delhi wishes to advise customers that an employee from the Davenport Branch tested positive for COVID-19. As such, bank customers who were at that Branch during the period of February 1 – 3, 2021 may have been exposed to this virus.

According to the Centers for Disease Control and Prevention (CDC), the virus is thought to spread mainly between people who are in close contact with one another (within about 6 feet for a cumulative total of 15 minutes or more during a 24-hour period) through respiratory droplets produced by an infected person. Based on this definition, we do not believe customers are at risk of infection. However, if you experience symptoms of COVID-19 illness, please immediately contact your health care provider and consider self-monitor for ten days after the possible exposure.

Please know that the bank is taking measures to ensure the safety of our customers and employees during this coronavirus outbreak, including requiring the use of face masks, enforcing social distancing, and continually disinfecting workspaces.

Our affected bank employees have been made aware of this advisement. For more information on COVID-19, including symptoms and treatment, visit the CDC website at www.cdc.gov.
