

# MOBILITI™ WITH NOTIFI<sup>SM</sup> CHEAT SHEET

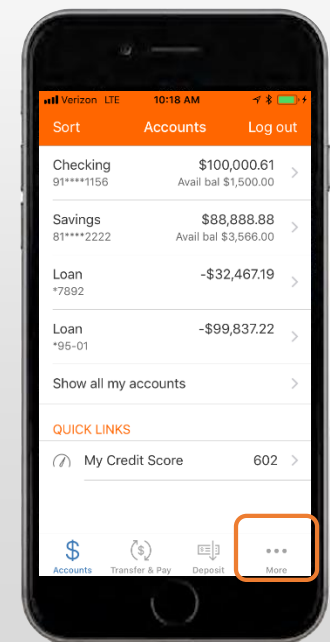

USERS CAN NOW RECEIVE REAL-TIME PUSH NOTIFICATIONS THAT ACTUALLY MATTER

## HOW TO ENABLE NOTIFI

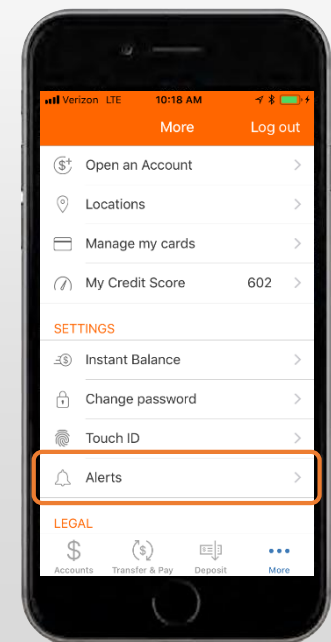

Log into the app using your username and password, or fingerprint authentication.

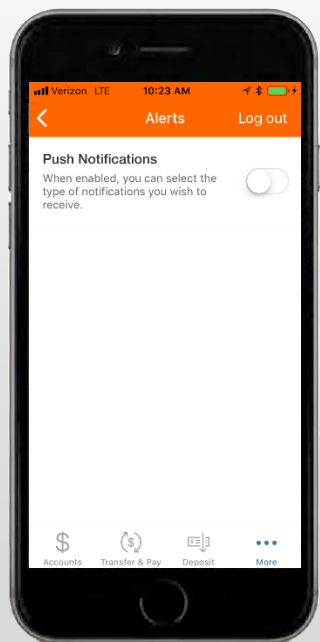

After logging in, users will be brought to their account overview page. To enable Notifi, tap on the “More” button at the bottom right of the screen.

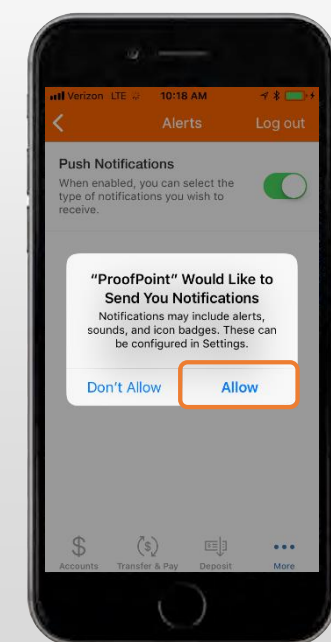

Under settings, tap on the “Alerts” tab.

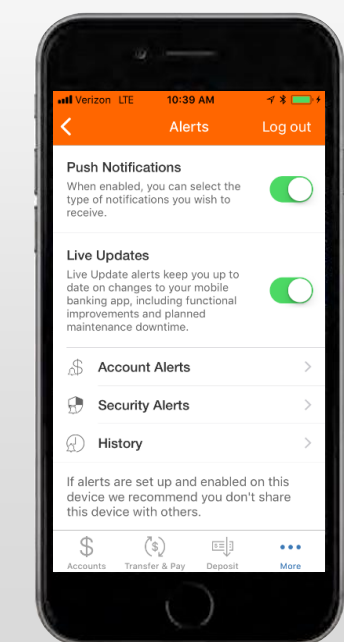

To enable push notifications, toggle the switch.

Depending on their mobile operating systems, users may be asked to confirm that they would like to enable push notifications. To enable them, click Allow.

After you tap “Allow”, push notifications will be turned on. The green toggle indicates that this feature is enabled. Users can customize alerts by selecting “Account Alerts”, “Security Alerts”. Users can view their alert history by selecting “History”.

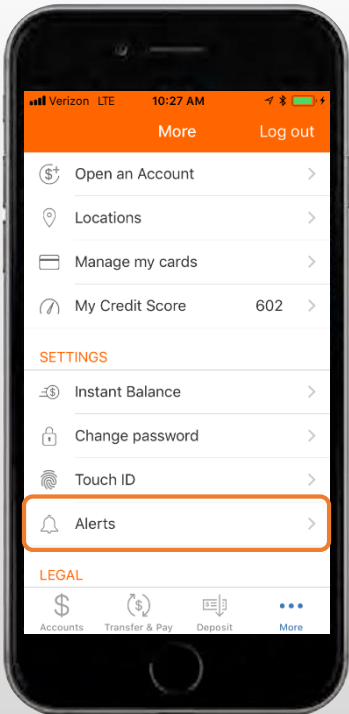

Screenshots are for illustrative purposes only. Exact functionality may vary by financial institution.

## HOW TO ENABLE ACCOUNT ALERTS

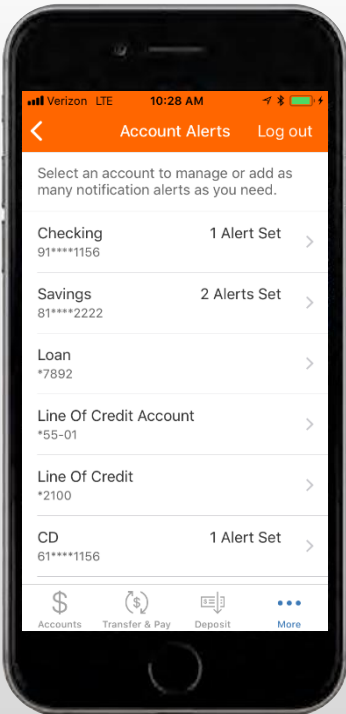

Under the “More” menu, tap on the “Alerts” tab under settings.

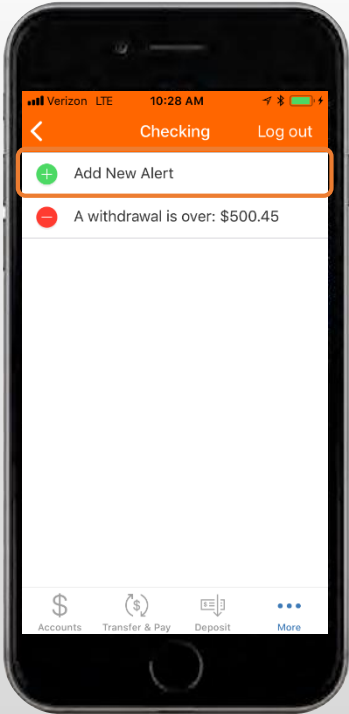

After enabling push notifications, tap on the “Account Alerts” tab.

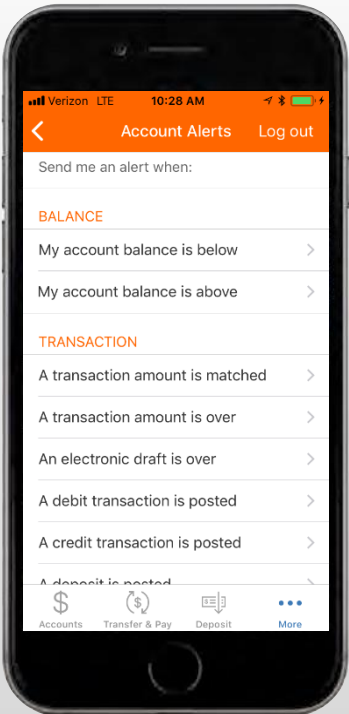

Users will be able to choose the account for which they wish to receive alerts.

After selecting the appropriate account, users can add specific alerts. To add a new alert, tap on the “Add New Alert” tab at the top the screen.

Where eligible, users can receive balance and transaction alerts. Tap on the specific alerts you want to receive and set specific parameters if necessary. These settings will be saved after they are enabled.

## HOW TO ENABLE SECURITY ALERTS

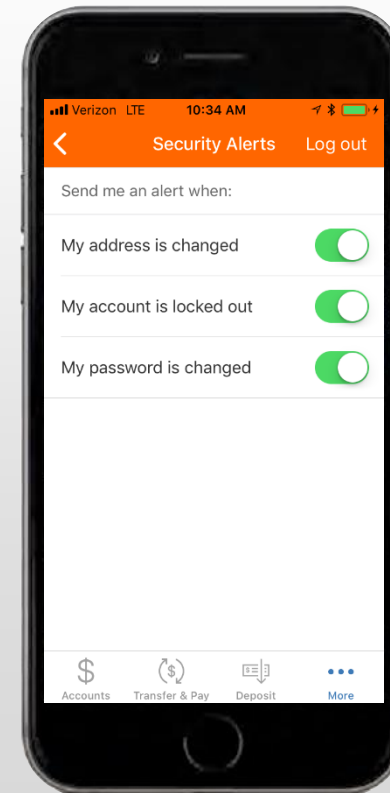

After enabling push notifications, tap on the “Security Alerts” tab.

Where eligible, users can toggle on security alerts for a change of address, account lock outs and password changes. Toggle on the security alerts you want to receive.

The green toggle indicates that these security alerts are enabled.
