## PRESIDENT'S MESSAGE 2025

To Our Stockholders,

Prior to highlighting the accomplishments of 2024, I would like to take a moment to recognize a member of the Bank's family. Gretchen Rossley retired in December 2024 after dedicating 43 years of her life to the Bank. Gretchen's knowledge, willingness and abilities truly have helped mold the Bank into the excellent institution it is today. There was not a single project or task that Gretchen wasn't willing to pour her heart and soul into for the betterment of the Bank and its customers. Gretchen will truly be missed. We wish Gretchen and her family the best as she embarks on the next chapter of her life.

Net Income per share was \$0.50, compared to the prior year's results of \$0.56. The Bank's Net Income was \$1.71 million, compared to 2023, which was \$1.91 million.

Total assets decreased by .93%. Investment securities decreased by 9.64%, while net loans increased .66%. Deposits increased by 3.91%. Capital decreased by 1.38%, making our capital to assets ratio 7.59% at year end. The increase in loans was created predominately by local demand. As always, we are very proud to be your community Bank.

The last shares of Delhi Bank Corp. traded in 2024 were at \$20.60. The common stock book value per share at December 31, 2024, was \$8.21 based on the actual number of common shares outstanding. Your Board of Directors declared cash dividends of \$0.3832 per share in 2024, which was a .26% increase over the dividends declared in 2023. This equates to a dividend yield of 1.86% based on the year end market price. Including the dividend declared at year end, Delhi Bank Corp. has maintained or increased the dividend payout for 68 consecutive quarters.

The Delaware National Bank of Delhi has once again earned a 5-Star Superior rating from [BauerFinancial, the Nation's Premier Bank Rating Firm](#). A 5-Star Superior rating indicates that The Delaware National Bank of Delhi is one of the strongest banks in the nation, excelling in areas of capital, loan quality, profitability and more. This marks the 120th consecutive quarter that The Delaware National Bank of Delhi has earned this top rating, which secures it an even more elite status as a "Best of Bauer Bank", an honor reserved solely for banks that have maintained a 5-Star rating for 25 years or longer. "A lot of things are changing", reflects Karen L. Dorway, president of BauerFinancial. "Rules and regulations are being retooled, technology is advancing at lightning speed, and it's easy to feel like you're getting lost in the fray," she continues. "People don't want to feel like that at their bank. When they walk into a branch, they want to feel confident that their deposits are safe, that all rules are being followed, and that their banker understands their specific needs. That's why it's so important to have 5-Star rated (Superior) banks, like The Delaware National Bank of Delhi, in our communities. We can be confident that they have our hard-earned deposits properly secured. The Delaware National Bank of Delhi was established in 1839 and has been meeting the specific needs of the people in the communities it serves for 186 years. You can be proud to call The Delaware National Bank of Delhi your bank."

During my 31 years at The Delaware National Bank of Delhi I have had the pleasure to meet and speak with many. I encourage all Shareholders to stop by the Bank or call me if I can be of any assistance.

Thank you for your continued support. We look forward to a successful 2025 and beyond. Be safe.

Respectfully,

Peter V. Gioffe  
President

## **Independent Auditors' Report**

To the Stockholders and Board of Directors of  
Delhi Bank Corp. and Subsidiary

### **Opinion**

We have audited the consolidated financial statements of Delhi Bank Corp. and Subsidiary (Company), which comprise the consolidated balance sheets as of December 31, 2024 and 2023, and the related consolidated statements of income, comprehensive income, changes in stockholders' equity and cash flows for the years then ended, and the related notes to the consolidated financial statements.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the financial position of the Company as of December 31, 2024 and 2023, and the results of its operations and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America (GAAP).

### **Basis for Opinion**

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are required to be independent of the Company and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### **Responsibilities of Management for the Consolidated Financial Statements**

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with GAAP, and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Company's ability to continue as a going concern within one year after the date that the consolidated financial statements are available to be issued.

## **Auditors' Responsibilities for the Audit of the Consolidated Financial Statements**

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the consolidated financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the consolidated financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the consolidated financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Company's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings and certain internal control-related matters that we identified during the audit.

## Notes to Consolidated Financial Statements

December 31, 2024 and 2023

### **1. Summary of Significant Accounting Policies**

#### **Principles of Consolidation**

The consolidated financial statements include the accounts of Delhi Bank Corp. (Bank Corp.) and its wholly-owned subsidiary, The Delaware National Bank of Delhi (Bank) (collectively, Company). All significant intercompany accounts and transactions have been eliminated in consolidation.

#### **Nature of Operations**

The Company provides a full range of commercial banking services to individual and small business customers in Delaware County, New York and the surrounding counties. The area is a rural market with an economic base made up of light manufacturing, retail and agricultural businesses. The Company's primary deposit products are demand deposits and interest bearing time and savings accounts. It offers a full array of loan products to meet the needs of retail and commercial customers.

The Bank is subject to regulation by the Office of the Comptroller of the Currency. The Bank Corp. is subject to regulation by the Federal Reserve Bank of New York.

#### **Use of Estimates**

The preparation of consolidated financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amount of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Material estimates that are particularly susceptible to significant change relate to the determination of the allowance for credit losses, the valuation of investment securities and determination of credit related impairment thereon, and valuation of deferred tax assets.

#### **Cash and Due From Banks**

For the purposes of the consolidated statements of cash flows, cash and due from banks includes cash on hand and amounts due from other banks.

#### **Interest-Bearing Deposits With Banks**

Interest-bearing deposits with banks consist of certificates of deposit and are carried at cost which approximates fair value.

#### **Investment Securities**

Debt securities that management has the positive intent and ability to hold to maturity are classified as held-to-maturity and reported at amortized cost. Debt securities not classified as held-to-maturity are classified as available-for-sale and reported at fair value, with unrealized gains and losses excluded from earnings and reported in other comprehensive (loss) income. The Company has no trading securities.

Purchase premiums and discounts are recognized in interest income using the interest method over the terms of the securities. Gains and losses on the sale of securities are recorded on the trade date and are determined using the specific identification method.

The Company's portfolio of held-to-maturity debt securities consists of local municipal investments which have a long history of no credit losses. In estimating the net amount expected to be collected for held-to-maturity debt securities in an unrealized loss position, a historical loss based method is utilized to calculate the allowance for credit losses.

## **Delhi Bank Corp. and Subsidiary**

---

### Notes to Consolidated Financial Statements

December 31, 2024 and 2023

For available-for-sale debt securities in an unrealized loss position, the Company first assesses whether it intends to sell, or it is more likely than not that it will be required to sell the security before recovery of its amortized cost basis. If either of the criteria regarding intent or requirement to sell is met, the security's amortized cost basis is written down to fair value through income. For debt securities available-for-sale that do not meet the above criteria, the Company evaluates whether the decline in fair value has resulted from credit losses or other factors. In making this assessment, the Company considers the extent to which fair value is less than amortized cost, any changes to the rating by a rating agency, and adverse conditions related to the security, among other factors. If this assessment indicates that a credit loss exists, the present value of cash flows expected to be collected from the security are compared to the amortized cost basis of the security. If the present value of the cash flows expected to be collected is less than the amortized cost basis, a credit loss exists and an allowance for credit losses is recorded for the credit loss, limited by the amount that the fair value is less than the amortized cost. Any impairment that has not been recorded through an allowance for credit losses is recognized in other comprehensive income (loss), net of tax. The Company elected the practical expedient of zero loss estimates for securities issued by U.S. government entities and agencies and local municipals. These securities are either explicitly or implicitly guaranteed by the U.S. government, are highly rated by major agencies and have a long history of no credit losses.

### **Restricted Equity Securities**

Restricted equity securities consist of investments in the Federal Home Loan Bank of New York (FHLB), the Federal Reserve Bank of New York and the Atlantic Community Bankers Bank. Investments in these entities are restricted and carried at cost.

The Company, as a member of the FHLB system, is required to maintain an investment in the capital stock of the FHLB. Based on redemption provisions of the FHLB, the stock has no quoted market value and is carried at cost. Management considers whether this investment is impaired based on the ultimate recoverability of the cost basis rather than by recognizing temporary declines in value. The determination of whether a decline affects the ultimate recoverability of the cost includes (1) the significance of the decline in net assets of the FHLB as compared to the capital stock amount and the length of time this situation has persisted, (2) commitments by the FHLB to make payments required by law or regulation and the level of such payments in relation to the operating performance of the FHLB, (3) the impact of legislative and regulatory changes on the institutions and on the customer base of the FHLB and (4) the liquidity position of the FHLB. Management believes no impairment charge is necessary related to its investment in FHLB stock at December 31, 2024 and 2023.

### **Significant Group Concentration of Credit Risk**

The Company grants loans to customers primarily located in Delaware County, New York and the surrounding counties. Although the Company has a diversified loan portfolio, a substantial portion of its debtors' ability to honor their contracts is dependent on the economic conditions in its marketplace. The Company does not have any significant concentrations from one industry or customer.

### **Accrued Interest Receivable**

The Company made an accounting policy election to exclude accrued interest receivable from the amortized cost basis of loans and securities subject to evaluation for the related allowance for credit losses. Accrued interest receivable on loans, reported as a component of other assets on the consolidated balance sheets, totaled \$1,367,421 and \$1,396,949 at December 31, 2024 and 2023, respectively, and is excluded from the estimate of credit losses. Accrued interest receivable on securities, also a component of other assets on the consolidated balance sheets, totaled \$248,404 and \$274,503 at December 31, 2024 and 2023, respectively, and is excluded from the estimate of credit losses.

**Loans Receivable**

Loans that management has the intent and ability to hold for the foreseeable future or until maturity or pay-off are reported at their outstanding unpaid principal balances, adjusted for the allowance for credit losses and any unamortized deferred fees or costs on originated loans. Interest income is accrued on the unpaid principal balance. Loan origination fees, net of certain direct origination costs, are deferred and recognized as an adjustment of the related loan yield over the contractual life of the loan using the interest method.

The loan receivable portfolio is segmented into real estate, commercial and industrial, agricultural and consumer loans. Real estate loans include loans secured by commercial, residential and agricultural properties. Residential loans include 1-4 family mortgage loans and home equity loans. Commercial and industrial loans are secured by equipment, accounts receivable, inventories or other business assets. Agricultural loans are secured by equipment and other farm assets. Consumer loans consist of personal installment and auto loans and credit cards. The segments of the Company's loan portfolio are disaggregated to a level that allows management to monitor risk and performance. Common risk characteristics include loan type, collateral type and geographic location.

Generally, the accrual of interest is discontinued when the contractual payment of principal or interest has become 90 days past due or management has serious doubts about further collectability of principal or interest, even though the loan is currently performing. A loan may remain on accrual status if it is in the process of collection and is well secured. When a loan is placed on nonaccrual status, unpaid interest is reversed against interest income. Interest received on nonaccrual loans generally is either applied to principal or recognized as interest income, depending on management's judgment as to the collectability of principal. Generally, loans are restored to accrual status when the obligation is brought current, has performed in accordance with the contractual terms for a reasonable period of time (generally six months) and the ultimate collectability of the total contractual principal and interest is no longer in doubt. The past due status of all classes of loans receivable is determined based on contractual due dates for loan payments.

**Allowance for Credit Losses on Loans Receivable**

On January 1, 2023, the Company adopted Accounting Standards Update (ASU) 2016-13, *Financial Instruments—Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments*. The current expected loss method (CECL) incorporates an estimate of credit losses for the remaining life of the financial asset using historical loss experience, current economic conditions and reasonable and supportable forecasts. The allowance for credit losses (allowance) generally applies to financial assets including loans and certain off-balance-sheet items such as unfunded loan commitments. The allowance represents management's estimate of expected lifetime credit losses inherent in the loan portfolio as of the consolidated balance sheet date and is recorded as a reduction to loans. The reserve for unfunded lending commitments represents management's estimate of lifetime credit losses inherent in its unfunded loan commitments and is recorded in other liabilities on the consolidated balance sheets. The allowance is increased by the provision for credit losses, and decreased by charge-offs, net of recoveries. Loans deemed to be uncollectible are charged against the allowance and subsequent recoveries, if any, are credited to the allowance. All, or part, of the principal balance of loans receivable are charged off to the allowance as soon as it is determined that the repayment of all, or part, of the principal balance is highly unlikely. Because all identified losses are immediately charged off, no portion of the allowance is restricted to any individual loan or groups of loans, and the entire allowance is available to absorb any and all loan losses.

The allowance is maintained at a level considered adequate to provide for losses that can be reasonably anticipated. Management performs a quarterly evaluation of the adequacy of the allowance. The allowance is estimated using relevant available information from both internal and external sources relating to past events (including the Company's past loan loss experience), current conditions, and reasonable and supportable forecasts.

The allowance for credit losses consists of both specific allocations for individually evaluated loans and allocations for expected credit losses over the life of loans within the Company's loan portfolio segmented into loan pools with similar risk characteristics.

**Specific Allocation - Individually Evaluated Loans**

Loans that do not share similar risk characteristics with existing pools are evaluated on an individual basis. For loans that are individually evaluated, a specific allowance allocation is established when the collateral value, observable market price, or discounted cash flows of the loan is lower than the carrying value of that loan. The estimated fair values of substantially all of the Company's individually evaluated loans are measured based on the estimated fair value of the loan's collateral.

For loans secured by real estate, estimated fair values are determined through third-party appraisals. When a real estate secured loan becomes individually evaluated, a decision is made regarding whether an updated certified appraisal of the real estate is necessary. This decision is based on various considerations, including the age of the most recent appraisal, the loan-to-value ratio based on the original appraisal and the condition of the property. Appraised values are discounted to arrive at the estimated selling price of the collateral, which is considered to be the estimated fair value. The discounts also include estimated costs to sell the property.

For loans secured by non-real estate collateral, such as accounts receivable, inventory and equipment, estimated fair values are determined based on the borrower's consolidated financial statements, inventory reports, accounts receivable agings or equipment appraisals or invoices. Indications of value from these sources are generally discounted, as appropriate, based on the age of the financial information or the quality of the assets.

**Collective Evaluation of Expected Losses - Pool Basis**

The Company measures expected credit losses for loans on a pooled basis when similar risk characteristics exist. The Company has identified the following portfolio segments and calculates the allowance for credit losses for each using the weighted-average remaining maturity (WARM) method:

- 1-4 Family Mortgage with Escrow
- 1-4 Family Mortgage
- Agricultural LOC
- Agricultural OEL
- Agricultural
- Commercial HELOC
- Commercial LOC
- Commercial Mortgage with Escrow
- Commercial Mortgage
- Commercial
- Consumer Automobile
- Consumer OEL
- Consumer
- Consumer Mobile Home
- Home Equity LOC

The pools identified are similar to the loan classes used in the Company's financial reporting.

The Company utilizes the WARM method which is a simplified approach to measuring credit losses intended for community institutions with non-complex and homogenous loan pools. The WARM method requires the Company to estimate a future annual loss rate and apply that rate to forecasted balances over the estimated life of the loans in the pools. The estimated future loss rate for each loan pool is derived from historical loss rates (net charge-offs), adding an adjustment for qualitative factors to account for changes in the risk characteristics of the loan portfolio. An economic conditions adjustment is applied as deemed necessary by management based on supportable and reasonable forecasts of economic factors impacting the loan pools.

In applying the WARM method, the Company used the annual net charge-offs as a percentage of average total loan balances (net charge-off percentage) for each loan pool.

The model also incorporates the following qualitative factors that are reviewed for each loan pool:

1. Lending policies and procedures, including underwriting standards and collection, charge-off and recovery practices.
2. National, regional and local economic and business conditions as well as the condition of various market segments, including the value of underlying collateral for collateral dependent loans.
3. Nature and volume of the portfolio and terms of loans.
4. Experience, ability and depth of lending management and staff.
5. Volume and severity of past due, classified and nonaccrual loans as well as other loan modifications.
6. Existence and effect of any concentrations of credit and changes in the level of such concentrations.
7. Effect of other external factors (i.e., competition, legal and regulatory).
8. Changes in the quality of the loan review system.
9. Changes in the value of underlying collateral for collateral-dependent loans.

The Company's credit policies determine interest rates against the different forms of collateral that can be pledged against commercial loans. Typically, the majority of loans will be limited to a percentage of their underlying collateral values such as real estate values, equipment, eligible accounts receivable and inventory. Individual commercial loan interest rates may be higher or lower depending upon the financial strength of the borrower and/or term of the loan. The assets financed through commercial loans are used within the business for its ongoing operation. Repayment of these kinds of loans generally comes from the cash flow of the business or the ongoing conversions of assets. Commercial real estate loans include long-term loans financing commercial properties. Repayment of this kind of loan is dependent upon either the ongoing cash flow of the borrowing entity or the resale of or lease of the subject property.

## Delhi Bank Corp. and Subsidiary

---

### Notes to Consolidated Financial Statements

December 31, 2024 and 2023

Commercial lending, including commercial real estate loans, generally present a higher level of risk than residential mortgage loans. This greater risk is due to several factors, including the concentration of principal in a limited number of loans and borrowers, the effect of general economic conditions on income producing properties and the increased difficulty of evaluating and monitoring these types of loans. Furthermore, the repayment of loans secured by commercial real estate is typically dependent upon the successful operation of the related real estate project or business. If the cash flow from the project is reduced, the borrower's ability to repay the loan may be impaired. Consumer loans may entail greater credit risk than do residential mortgage loans, particularly in the case of consumer loans which are unsecured or are secured by rapidly depreciable assets, such as automobiles. In such cases, any repossessed collateral for a defaulted consumer loan may not provide an adequate source of repayment of the outstanding loan balance as a result of the greater likelihood of damage, loss or depreciation. In addition, consumer loan collections are dependent on the borrower's continuing financial stability, and thus are more likely to be affected by adverse personal circumstances. Furthermore, the application of various federal and state laws, including bankruptcy and insolvency laws, may limit the amount which can be recovered on such loans.

Residential real estate and home equity loans are secured by the borrower's residential real estate. Residential mortgages have amortizations up to 30 years.

Consumer loans are typically unsecured or secured by the borrower's vehicle, deposits, or securities.

Agriculture loans are typically unsecured or secured by inventory, customer accounts or equipment.

The borrower's overall financial condition, repayment sources, guarantors and value of collateral, if appropriate, are evaluated annually for all loan classes. Credit quality risk ratings include regulatory classifications of pass, special mention, substandard, doubtful and loss. Loans classified as special mention have potential weaknesses that deserve management's close attention. If uncorrected, the potential weaknesses may result in deterioration of the repayment prospects. Loans classified substandard have a well-defined weakness or weaknesses that jeopardize the liquidation of the debt. They include loans that are inadequately protected by the current sound net worth and paying capacity of the obligor or of the collateral pledged, if any. Loans classified doubtful have all the weaknesses inherent in loans classified substandard with the added characteristic that collection or liquidation in full, on the basis of current conditions and facts, is highly improbable. Loans classified as a loss are considered uncollectible and are immediately charged to the allowance for credit losses. Loans not classified are rated pass. To help ensure that risk ratings are accurate and reflect the present and future capacity of borrowers to repay a loan as agreed, the Company has a structured loan rating process encompassing both internal and external oversight. The Company's loan officers are responsible for the timely and accurate risk rating of all loans in the Company's loan portfolio at origination and on an ongoing basis. The Company utilizes an external loan review consultant to conduct a loan review of its portfolio each year. The external consultant generally reviews all commercial loan relationships exceeding a specified threshold.

In addition, regulatory banking agencies, as an integral part of their examination process, periodically review the Company's allowance for credit losses and may require the Company to recognize additions to the allowance based on their judgments about information available to them at the time of their examination, which may not be currently available to management. Based on management's comprehensive analysis of the loan portfolio, management believes the current level of the allowance for credit losses is adequate.

## **Delhi Bank Corp. and Subsidiary**

---

### **Notes to Consolidated Financial Statements**

December 31, 2024 and 2023

A loan modification or refinancing results in a new loan if the terms of the new loan are at least as favorable to the lender as the terms with customers with similar collection risks that are not refinancing or restricting their loans and the modification to the terms of the loan are more than minor. If a loan modification or refinancing does not result in a new loan, it is classified as a loan modification.

There are additional disclosures for modification of loans with borrowers experiencing financial difficulty that result in a direct change in the timing or amount of contractual cash flows. The disclosures are applicable to situations where there is principal forgiveness, interest rate reductions, other than insignificant payment delays, term extensions, or a combination of any of these. If the Company modifies any loans to borrowers in financial distress that involves principal forgiveness, the amount of principal that is forgiven is charged off against the allowance.

### **Premises and Equipment**

Premises and equipment are stated at cost less accumulated depreciation computed on the straight-line method over the estimated lives of the assets. Finance lease right-of-use assets are recorded at an amount equal to the lease liability at commencement plus initial direct costs and are amortized over the shorter of the lease term or the estimated life of the asset. The lease liability is equal to the present value of the minimum lease payments. Amortization of finance lease right-of-use assets is included in depreciation expense.

### **Bank Owned Life Insurance**

The Company is the owner and beneficiary of life insurance policies on certain current and former executive employees and directors. The life insurance investment is carried at the cash surrender value of the underlying policies. The increase in the cash surrender value is recognized as a component of noninterest income. The policies can be liquidated, if necessary, with tax costs associated. The Company intends to hold these policies and, accordingly, the Company has not provided for deferred income taxes on the earnings from the increase in cash surrender value.

### **Earnings Per Share**

Earnings per share is based on the weighted average number of shares of common stock outstanding. The Company's basic and diluted earnings per share are the same since there are no dilutive shares of potential common stock outstanding. Weighted average shares outstanding were 3,398,442 in 2024 and 3,394,948 in 2023.

### **Advertising Costs**

Advertising costs are expensed as incurred and were \$45,847 in 2024 and \$45,626 in 2023.

## **Delhi Bank Corp. and Subsidiary**

---

### Notes to Consolidated Financial Statements

December 31, 2024 and 2023

#### **Foreclosed Assets**

Assets acquired through, or in lieu of, loan foreclosure are held for sale and are initially recorded at fair value less costs to sell at the date of foreclosure, establishing a new cost basis. Any losses based on the asset's fair value at the date of foreclosure are charged to the allowance for credit losses. Subsequent to foreclosure, valuations are periodically performed and the assets are carried at the lower of carrying amount or fair value less cost to sell. Costs incurred in maintaining foreclosed assets and subsequent adjustments to the carrying amount of the assets are included in noninterest expenses. There were \$52,553 of foreclosed assets at December 31, 2024 and \$80,568 at December 31, 2023. Residential real estate loans in process of foreclosure at December 31, 2024 were approximately \$84,000.

#### **Income Taxes**

Income tax accounting guidance results in two components of income tax expense: current and deferred. Current income tax expense reflects taxes to be paid or refunded for the current period by applying the provisions of the enacted tax law to the taxable income or excess of deductions over revenues. The Company determines deferred income taxes using the liability (or balance sheet) method. Under this method, the net deferred tax asset or liability is based on the tax effects of the differences between the book and tax bases of assets and liabilities. Enacted changes in tax rates and laws are recognized in the period in which they occur. Deferred tax assets are reduced by a valuation allowance if, based on the weight of evidence available, it is more likely than not that some portion or all of a deferred tax asset will not be realized. The Company recognizes interest and penalties on income taxes as a component of income tax expense.

#### **Treasury Stock**

Treasury stock is recorded at cost. The subsequent disposition or sale of the treasury stock is recorded using the average cost method.

#### **Comprehensive Income**

Comprehensive income consists of net income and other comprehensive (loss) income. Other comprehensive (loss) income consists solely of the net unrealized (losses) gains on available-for-sale debt securities, net of deferred income taxes. Accumulated other comprehensive loss consists of net unrealized losses of \$12,415,359 less deferred income tax benefit of \$2,607,225 at December 31, 2024 and net unrealized losses of \$11,869,882 less deferred income tax benefit of \$2,492,675 at December 31, 2023.

#### **Revenue Recognition**

The Company recognizes revenue from various sources, including loans, investment securities, bank owned life insurance, deposit accounts and sales of assets.

Interest income on loans is accrued on the unpaid principal balance and recorded daily. Loan origination fees, net of certain direct origination costs, are deferred and recognized as an adjustment of the related loan yield using the interest method. Other loan fees, including late charges, are recognized as they occur.

Interest income on debt securities, including purchase premiums and discounts, is calculated using the interest method over the term of the securities. Dividends on equity securities are recorded when declared.

Earnings on bank owned life insurance policies represent the increase in the cash surrender value of these policies as well as any gains resulting from settlement of the policies.

## Delhi Bank Corp. and Subsidiary

### Notes to Consolidated Financial Statements

December 31, 2024 and 2023

Noninterest income includes service charge, overdraft and other deposit account fees, ATM and debit card interchange income, trust department fees and other miscellaneous fees and income. Revenue is recognized when the Company's performance obligation is completed which is generally monthly for interchange and trust department income or when a transaction has been completed, such as when an overdraft occurs. Other fees and income are generally transactional in nature and are recognized as they occur.

Gains or losses on sales of assets are generally recognized when the asset has been legally transferred to the buyer and the Company has no continuing involvement with the asset. The Company does not generally finance the purchase.

### Consolidated Statements of Cash Flows

Supplemental consolidated cash flows for years ended December 31 is summarized as follows:

	<b>2024</b>	<b>2023</b>
Interest paid	\$ 5,019,797	\$ 3,913,758
Income tax payments	275,000	300,000
Loans transferred to foreclosed assets	52,553	80,568
Dividends payable	326,067	325,166

### Reclassifications

Certain amounts related to 2023 have been reclassified to conform with the 2024 reporting presentation.

### Subsequent Events

Subsequent events were evaluated through March 13, 2025, the date the consolidated financial statements were available to be issued.

### Future Accounting Standard

During December 2023, the Financial Accounting Standards Board (FASB) issued ASU No. 2023-09, *Income Taxes (Topic 740): Improvements to Income Tax Disclosures*. ASU No. 2023-09 enhances the transparency and decision usefulness of income tax disclosures. The amendments in this ASU require consistent categories and greater disaggregation of information in the rate reconciliation and income taxes paid disaggregated by jurisdiction. ASU No. 2023-09 is effective for fiscal years beginning after December 15, 2024. Early adoption is permitted. The amendments in this ASU should be applied on a prospective basis. Retrospective application is permitted. The Company does not believe that the adoption of ASU No. 2023-09 will have a material effect on its consolidated results of operations, financial position and cash flows.

The Company had 159 available-for-sale debt securities in unrealized loss positions at December 31, 2024. The securities have depreciated approximately 16% from the Company's amortized cost basis. These securities are primarily issued by U.S. government agencies and U.S. GSE. The unrealized losses are considered to result from changes in market interest rates subsequent to purchase and not from downgrades in the creditworthiness of the issuers. In analyzing an issuer's financial condition, management considers whether the securities are issued by the federal government or its agencies, whether downgrades by bond rating agencies have occurred, and the results of reviews of the issuer's financial condition. The Company does not intend to sell these securities nor is it more likely than not that it will be required to sell these securities prior to recovery. The Company estimated no allowance for credit losses for its investment securities classified as available-for-sale debt securities at December 31, 2024 and 2023.

The Company estimated no allowance for credit losses for its investment securities classified as held-to-maturity at December 31, 2024, as the portfolio consists entirely of local municipal investments.

Investment securities with carrying amounts of \$43,785,419 and \$55,692,278 at December 31, 2024 and 2023, respectively, were pledged to secure deposits as required or permitted by law.

### 3. Loans Receivable and Allowance for Credit Losses

Loans receivable at December 31 are summarized as follows:

	2024	2023
Real estate:		
Residential	\$ 133,931,415	\$ 124,271,103
Commercial	104,597,991	108,720,189
Commercial and industrial	10,480,938	13,811,093

The Company has certain loans for which repayment is dependent upon the operation or sale of collateral, as the borrower is experiencing financial difficulty. The underlying collateral can vary based upon the type of loan. The following provides more detail about the types of collateral that secure collateral dependent loans:

- Residential real estate loans are typically secured by first mortgages, and in some cases could be secured by a second mortgage.
- Commercial real estate loans can be secured by either owner occupied commercial real estate or non-owner occupied investment commercial real estate. Typically, owner occupied commercial real estate loans are secured by office buildings, warehouses, manufacturing facilities and other commercial and industrial properties occupied by operating companies. Non-owner occupied commercial real estate loans are generally secured by office buildings and complexes, retail facilities, multifamily complexes, land under development, industrial properties, as well as other commercial or industrial real estate.
- Home equity lines of credit are generally secured by second mortgages on residential real estate property.
- Agriculture loans are generally unsecured with no underlying collateral or secured by inventory, customer accounts, or equipment
- Consumer loans are typically unsecured or secured by the borrower's vehicle, deposits, or securities.

The following table details collateral dependent loans as of December 31:

	2024	2023
Residential real estate	\$ 1,174,113	\$ 1,075,290
Commercial real estate	117,558	55,171
Consumer	-	17,724
Total	<u>\$ 1,291,671</u>	<u>\$ 1,148,185</u>

The allowance for credit losses incorporates an estimate of lifetime expected credit losses and is recorded on each asset upon asset origination or acquisition. The starting point for the estimate of the allowance for credit losses is historical loss information, which includes losses from modifications of receivables to borrowers experiencing financial difficulty. An assessment of whether a borrower is experiencing financial difficulty is made on the date of a modification.

## Delhi Bank Corp. and Subsidiary

### Notes to Consolidated Financial Statements

December 31, 2024 and 2023

Because the effect of most modifications made to borrowers experiencing financial difficulty, such as extensions of terms, insignificant payment delays and interest rate reductions, is already included in the allowance for credit losses because of the measurement methodologies used to estimate the allowance, a change to the allowance for credit losses is generally not recorded upon modification. In some cases, the Company will modify a certain loan by providing multiple types of concessions. Typically, one type of concession, such as a term extension, is granted initially. If the borrower continues to experience financial difficulty, another concession, such as principal forgiveness, may be granted.

The Company made no loan modifications due to the borrower experiencing financial difficulty in 2024 and 2023.

#### 4. Premises and Equipment

Premises and equipment at December 31 is summarized as follows:

	2024	2023
Land	\$ 744,592	\$ 744,592
Buildings and improvements	6,137,578	6,086,987
Furniture and equipment	1,592,141	1,616,065
Right-of-use asset under finance lease	300,000	300,000
Total cost	8,774,311	8,747,644
Less accumulated depreciation	4,449,810	4,157,361
Net	\$ 4,324,501	\$ 4,590,283

The Company leases a branch facility under the terms of a lease agreement that has been accounted for as a finance lease. The lease expires in 2025. At December 31, 2024, the weighted-average remaining lease term and discount rate for this lease were 6.66 months and 6.70%, respectively. The net book value of the right-of-use asset under finance lease was \$13,333 at December 31, 2024 and \$33,333 at December 31, 2023.

Future minimum lease payments on the finance lease are as follows:

Years ended December 31:	
2025	\$ 23,720
Less amount representing interest	585
Net present value of minimum lease payments	\$ 23,135

Interest expense on the finance lease was \$2,755 in 2024 and \$4,878 in 2023. Amortization of the asset was \$20,000 in 2024 and 2023. Total cash paid for the finance lease was \$35,580 in 2024 and 2023.

## Delhi Bank Corp. and Subsidiary

### Notes to Consolidated Financial Statements

December 31, 2024 and 2023

#### 5. Deposits

Deposit account balances at December 31 are summarized as follows:

	2024	2023
Noninterest-bearing	\$ 74,626,557	\$ 72,166,619
Interest-bearing demand	32,500,601	33,631,054
Money market	16,251,761	19,876,019
Savings	102,805,283	103,900,963
Time	108,987,602	92,980,126
Total	<u>\$ 335,171,804</u>	<u>\$ 322,554,781</u>

Time deposits in denominations of \$250,000 and over were \$55,658,004 and \$42,551,623 at December 31, 2024 and 2023, respectively.

At December 31, 2024, scheduled maturities of time deposits are as follows (in thousands):

2025	\$ 86,647
2026	10,786
2027	3,970
2028	3,838
2029 and thereafter	3,747
Total	<u>\$ 108,988</u>

#### 6. Borrowed Funds

The Company has a \$1,500,000 unsecured line of credit agreement with the Atlantic Community Bankers Bank. Borrowings bear interest at the prime rate plus .50%, with a floor of 6.00%. The line expires July 2025. There were no borrowings at December 31, 2024 and 2023.

Overnight borrowings with the FHLB were \$0 and \$15,975,000 at December 31, 2024 and 2023, respectively. These borrowings at December 31, 2023 bore interest at 5.64%.

The Company may borrow funds on a long-term basis from the FHLB up to the amount of eligible collateral (loans and securities) it places with the FHLB. At December 31, 2024, the Company had a borrowing capacity of approximately \$75 million. At December 31, 2024, \$53 million of that capacity was used on an irrevocable stand-by letters of credit for municipal customers which expire in January 2025. There were no long-term borrowings at December 31, 2024 and 2023.

#### 7. Income Taxes

The provision for income tax consists of the following:

	2024	2023
Current	\$ 406,475	\$ 440,866
Deferred	(20,528)	(8,058)
Total	<u>\$ 385,947</u>	<u>\$ 432,808</u>

## Delhi Bank Corp. and Subsidiary

### Notes to Consolidated Financial Statements

December 31, 2024 and 2023

The reconciliation between the expected statutory income tax provision and the actual provision for income tax is as follows:

	2024		2023	
	Amount	Percent	Amount	Percent
Expected provision at statutory rate	\$ 439,480	21.0 %	\$ 491,965	21.0 %
Tax-exempt income	(58,394)	(2.7)	(56,707)	(2.4)
Other	4,861	0.2	(2,450)	(0.1)
Actual provision and rate	<u>\$ 385,947</u>	<u>18.5 %</u>	<u>\$ 432,808</u>	<u>18.5 %</u>

The following temporary differences gave rise to the net deferred tax asset at December 31:

	2024	2023
Deferred compensation	\$ 909,488	\$ 891,989
Allowance for credit losses	300,963	285,282
Unrealized losses on available-for-sale securities	2,607,225	2,492,675
Other	62,771	71,723
Total deferred tax assets	<u>3,880,447</u>	<u>3,741,669</u>
Depreciation	(268,899)	(316,103)
Deferred loan costs	<u>(1,029,597)</u>	<u>(978,693)</u>
Total deferred tax liabilities	<u>(1,298,496)</u>	<u>(1,294,796)</u>
Net deferred tax asset	<u>\$ 2,581,951</u>	<u>\$ 2,446,873</u>

The net deferred tax asset is included in other assets in 2024 and 2023.

The Company has elected the option to deduct the net interest income on qualified loans from its New York State taxable income. The Company believes the amount of this deduction will exceed its New York State taxable income for the foreseeable future. As a result, the Company has determined the realization of its net state deferred tax assets is not expected. In 2024 and 2023, the Company was in a net deferred tax liability position for state purposes. As such, no valuation allowance was required.

The Company had no unrecognized tax benefits at December 31, 2024 and 2023. There were no interest and penalties recognized in the consolidated balance sheets and statements of income in 2024 and 2023.

## Delhi Bank Corp. and Subsidiary

Notes to Consolidated Financial Statements  
December 31, 2024 and 2023

### 8. Pension and Postretirement Benefits

Effective January 1, 2023, the Company consolidated two defined contribution plans, a 401(k) plan and a non-leveraged employee stock ownership plan (ESOP) covering substantially all eligible Company employees, into a combined plan (KSOP) retaining features of both plans. Eligible employees may defer and contribute a percentage of their annual earnings to the plan. The Company contributes 100% of the first 10% of compensation deferred. Pension expense was \$222,617 in 2024 and \$227,470 in 2023. The KSOP held 400,222 shares of the Company's stock at December 31, 2024 with an estimated fair value of \$3,302,000. The KSOP held 368,382 shares of the Company's stock at December 31, 2023 with an estimated fair value of \$3,684,000. Plan shares are eligible to receive dividends and are considered outstanding shares for purposes of computing net income per share.

The Company also has individual deferred compensation arrangements with certain key executives and directors which provide supplemental retirement benefits. The total of these obligations was \$3,778,750 and \$3,706,922 at December 31, 2024 and 2023, respectively. Deferred compensation expense was \$351,276 in 2024 and \$349,508 in 2023.

### 9. Related-Party Transactions

In the ordinary course of business, the Company has granted loans to principal officers, directors, significant shareholders (greater than 10%) and their business affiliates. Such transactions were made on substantially the same terms and at those rates prevailing at the same time for comparable transactions with other customers. The following table summarizes the activity in these loans:

	2024	2023
Balance, beginning	\$ 2,075,410	\$ 1,412,772
New loans and other changes	40,000	300,000
Net activity and other changes	(1,326,286)	362,638
Balance, ending	\$ 789,124	\$ 2,075,410

Other changes result from the addition to or removal of individuals from the related party category. Net activity on existing loans includes advances on existing lines of credit and repayments on existing loans.

The Company held deposits of \$900,552 and \$873,988 for related parties at December 31, 2024 and 2023, respectively.

A director of the Company provides professional legal services to the Company. Fees for these services were \$37,143 in 2024 and \$45,895 in 2023.

### 10. Financial Instruments With Off-Balance-Sheet Risk

The Company is a party to financial instruments with off-balance-sheet risk in the normal course of business to meet the financing needs of its customers. These financial instruments include commitments to extend credit and standby letters of credit. Such commitments involve, to varying degrees, elements of credit and interest rate risk in excess of the amounts recognized in the consolidated balance sheets. The Company's exposure to credit loss is represented by the contractual amounts of these commitments. The Company follows the same credit policies in making commitments as it does for on-balance-sheet instruments.

## Delhi Bank Corp. and Subsidiary

### Notes to Consolidated Financial Statements

December 31, 2024 and 2023

Commitments to extend credit are agreements to lend to a customer as long as there is no violation of any condition established in the contract. Commitments generally have fixed expiration dates or other termination clauses and may require payment of a fee. Since many of the commitments are expected to expire without being drawn upon, the total commitment amounts do not necessarily represent future cash requirements. Unfunded commitments under lines of credit are commitments for possible future extensions of credit to existing customers. These lines of credit may or may not be collateralized and usually contain a specified maturity date and may not be drawn upon to the total extent to which the Company is committed.

Standby letters of credit written are conditional commitments issued by the Company to guarantee the performance of a customer to a third party. Those letters of credit are primarily issued to support public and private borrowing arrangements. Essentially all letters of credit issued have expiration dates within one year. The credit risk involved in issuing letters of credit is essentially the same as that involved in extending loans.

To reduce credit risk related to the use of credit-related financial instruments, the Company might deem it necessary to obtain collateral. The amount and nature of the collateral obtained is based on the Company's credit evaluation of the customer. Collateral held varies but may include cash, securities, accounts receivable, inventory, property, plant and equipment and real estate. The Company has not incurred any losses on its commitments in either 2024 or 2023.

Financial instruments whose contract amount represents credit risk were as follows:

	<u>2024</u>	<u>2023</u>
Commitments to extend credit (including lines of credit)	\$ 23,325,984	\$ 22,576,997
Standby letters of credit	430,092	487,588

The Company maintains a separate reserve for credit losses on off-balance-sheet credit exposures which is included in other liabilities on the consolidated balance sheets. The reserve for credit losses on off-balance-sheet credit exposures is adjusted as a provision for credit losses in Other Noninterest Expense on the consolidated statements of income. The estimate includes consideration of the likelihood that funding will occur and an estimate of expected credit losses on commitments expected to be funded over its estimated life.

For the years ended December 31, 2024 and 2023, the Company recorded a provision for credit losses for unfunded commitments of \$0 and \$15,000, respectively. At December 31, 2024 and 2023, the liability for credit losses on off-balance-sheet credit exposures was \$95,000.

## 11. Fair Value Disclosures

Fair value is defined as an exit price representing the amount that would be received to sell an asset or settle a liability in an orderly transaction between market participants. A three-level hierarchy exists for fair value measurements based upon the inputs to the valuation of an asset or liability.

Level 1 - Valuation is based on quoted prices in active markets for identical assets or liabilities;

Level 2 - Valuation is determined from quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets or liabilities in markets that are not active; or inputs that are observable for the asset or liability, either directly or indirectly through market corroboration, for substantially the full term of the financial instrument;

Level 3 - Valuation is derived from model-based and other techniques in which at least one significant input is unobservable and which may be based on the Company's own estimates about the assumptions that a market participant would use to value the asset or liability.

**Delhi Bank Corp. and Subsidiary**

## Notes to Consolidated Financial Statements

December 31, 2024 and 2023

The following table sets forth the Company's financial assets and liabilities measured at fair value on a recurring basis by level within the fair value hierarchy:

December 31, 2024				
	Level 1	Level 2	Level 3	Total
Available-for-sale:				
U.S. government agencies	\$ -	\$ 9,146,305	\$ -	\$ 9,146,305
U.S. government sponsored enterprises (GSE), mortgage-backed securities, residential	-	59,181,061	-	59,181,061
Local government obligations	-	999,020	-	999,020
Total	\$ -	\$ 69,326,386	\$ -	\$ 69,326,386
December 31, 2023				
	Level 1	Level 2	Level 3	Total
Available-for-sale:				
U.S. government agencies	\$ -	\$ 11,268,352	\$ -	\$ 11,268,352
U.S. government sponsored enterprises (GSE), mortgage-backed securities, residential	-	64,134,183	-	64,134,183
Local government obligations	-	992,720	-	992,720
Total	\$ -	\$ 76,395,255	\$ -	\$ 76,395,255

A financial asset or liability's classification within the hierarchy is determined based on the lowest level input that is significant to the fair value measurement.

All debt securities are measured at fair value using quoted prices from an independent third party that provide valuation services, such as matrix pricing, for similar assets, with similar terms in actively traded markets.

The following table sets forth the Company's financial assets and liabilities subject to fair value adjustments on a nonrecurring basis by level within the fair value hierarchy:

December 31, 2024			
	Level 1	Level 2	Total
Individually evaluated loans, net	\$ -	\$ -	\$ 67,915

## Delhi Bank Corp. and Subsidiary

Notes to Consolidated Financial Statements  
December 31, 2024 and 2023

	December 31, 2023			
	Level 1	Level 2	Level 3	Total
Individually evaluated loans, net	\$ -	\$ -	\$ 51,536	\$ 51,536

Individually evaluated loans that are collateral dependent are written down to fair value through the establishment of specific reserves. Such collateral is primarily real estate whose value is based on appraisals performed by certified appraisers. These values are generally adjusted based on management's knowledge of changes in market conditions or other factors. Since the adjustments may be significant, are based on management's estimates and are generally unobservable, they have been classified as Level 3.

The appraisals may be adjusted by management for qualitative reasons and estimated liquidation expenses. Management's assumptions may include consideration of location and occupancy of the property and current economic conditions. At December 31, 2024 and 2023, to account for these factors, negative adjustments to the appraisal value between 15-20% (weighted average of 15.2% and 15.0%, respectively) were made and liquidation expenses of 6% were assumed.

In addition to the disclosures of financial instruments recorded at fair value, GAAP requires the disclosure of the estimated fair value of all the Company's financial instruments. The majority of the Company's assets and liabilities are considered financial instruments. However, many of these instruments lack an available market. In addition, the Company's general practice and intent is to hold its financial instruments to maturity. The Company has considered the fair value measurement criteria as required under the accounting standard relating to fair value measurement as noted above. Fair value estimates have been determined based on the methodologies management considers most appropriate for each financial instrument.

	2024				
	Carrying Amount	Estimated Fair Value	Level 1	Level 2	Level 3
Financial assets:					
Cash and due from banks	\$ 11,427,576	\$ 11,427,576	\$ 11,427,576	\$ -	\$ -
Interest-bearing deposits with banks	11,942,000	11,942,000	-	11,942,000	-
Available-for-sale debt securities	69,326,386	69,326,386	-	69,326,386	-
Held-to-maturity debt securities	758,988	785,416	-	785,416	-
Restricted equity securities	464,800	464,800	-	464,800	-
Loans receivable, net	256,050,446	228,523,000	-	-	228,523,000
Accrued interest receivable	1,634,109	1,634,109	-	1,634,109	-
Financial liabilities:					
Deposits	335,171,804	335,025,202	-	335,025,202	-
Accrued interest payable	525,665	525,665	-	525,665	-

## Delhi Bank Corp. and Subsidiary

Notes to Consolidated Financial Statements  
December 31, 2024 and 2023

	2023				
	Carrying Amount	Estimated Fair Value	Level 1	Level 2	Level 3
Financial assets:					
Cash and due from banks	\$ 3,202,199	\$ 3,202,199	\$ 3,202,199	\$ -	\$ -
Interest-bearing deposits with banks	17,669,000	17,669,000	-	17,669,000	-
Available-for-sale debt securities	76,395,255	76,395,255	-	76,395,255	-
Held-to-maturity debt securities	567,525	589,538	-	589,538	-
Restricted equity securities	1,114,150	1,114,150	-	1,114,150	-
Loans receivable, net	254,383,417	219,118,000	-	-	219,118,000
Accrued interest receivable	1,689,583	1,689,583	-	1,689,583	-
Financial liabilities:					
Deposits	322,554,781	322,375,655	-	322,375,655	-
Accrued interest payable	292,989	292,989	-	292,989	-

The carrying value of short-term financial instruments, as listed below, approximates their fair value. These instruments generally have limited credit exposure, no stated or short-term maturities and carry interest rates that approximate market.

Assets	Liabilities
Cash and due from banks	Demand and savings deposits
Interest-bearing deposits with banks	Accrued interest payable
Accrued interest receivable	

The fair value methodology for available-for-sale debt securities was described previously. The fair value methodology for held-to-maturity debt securities is similar to the methodology for available-for-sale debt securities. The fair value of restricted equity securities is considered to approximate its carrying value as there is no market for these securities and the stock is redeemable at par value.

For short-term loans and variable rate loans which reprice within 90 days, the carrying value is considered to approximate fair value. For other types of loans, fair value was estimated by discounting cash flows using current market interest rates for similar loans, adjusted to reflect credit risk.

The fair value of interest-bearing time deposits is estimated by discounting contractual cash flows using current market rates for instruments with similar maturities.

The fair value of commitments to extend credit is estimated using the fees currently charged for similar agreements. For fixed rate loan commitments, fair value also considers the difference between current levels of interest rates and the committed rates. The fair value of standby letters of credit is based on fees currently charged for similar agreements plus the estimated cost to terminate or otherwise settle the obligations. The fair value of these instruments is considered immaterial and have been excluded from the tables.

## Delhi Bank Corp. and Subsidiary

Notes to Consolidated Financial Statements  
December 31, 2024 and 2023

### 12. Regulatory Matters

The Bank is subject to regulatory capital requirements administered by the federal banking agencies. Failure to meet minimum capital requirements can initiate certain mandatory and possibly additional discretionary actions by regulators that, if undertaken, could have a direct material effect on the Bank's consolidated financial statements. Under capital adequacy guidelines and the regulatory framework for prompt corrective action, the Bank must meet specific capital guidelines that involve quantitative measures of its assets, liabilities and certain off-balance sheet items calculated under regulatory accounting practices. The capital amounts and classification are also subject to qualitative judgments by the regulators about components, risk-weightings and other factors.

Quantitative measures established by regulation to ensure capital adequacy require the maintenance of minimum amounts and ratios (set forth in the following table) of total capital, Tier 1 capital (as defined in the regulations) and common equity Tier 1 capital to risk-weighted assets, and of Tier 1 capital to average assets. A capital conservation buffer of 2.50%, comprised of common equity Tier 1 capital, is also established above the regulatory minimum capital requirements and must be maintained to avoid limitations on capital distributions.

The Bank has elected the community bank leverage ratio framework. This framework simplifies the regulatory capital requirements by requiring the Bank meet only the Tier 1 capital to average assets (leverage) ratio. The Bank must only maintain a leverage ratio greater than the 9% required minimum to be considered well capitalized under this framework. The Bank can opt out of the new framework and return to the risk-weighting framework at any time.

Management believes, as of December 31, 2024, that the Bank meets all capital adequacy requirements to which they are subject. As of December 31, 2024, the most recent notification from the Federal Deposit Insurance Corporation categorized the Bank as well capitalized under the regulatory framework for prompt corrective action. To be categorized as well capitalized, an institution must maintain minimum ratios as set forth in the following tables. There are no conditions or events since that notification that management believes have changed the Bank's category. The Bank's actual capital amounts and ratios are as follows:

	2024			
	Actual		To be Well Capitalized	
	Amount	Ratio	Amount	Ratio
Tier 1 (core) capital (to average assets)	\$ 37,977	10.3 %	\$ 33,152	9.0 %

	2023			
	Actual		To be Well Capitalized	
	Amount	Ratio	Amount	Ratio
Tier 1 (core) capital (to average assets)	\$ 37,932	9.9 %	\$ 34,447	9.0 %

The Federal Reserve Bank has established capital guidelines for bank holding companies. These guidelines allow small bank holding companies, as defined, an exemption from regulatory capital requirements. The Bank Corp. meets the eligibility criteria and is exempt from regulatory capital requirements.

The Bank is subject to legal limitations on the amount of dividends that can be paid to the Bank Corp. without regulatory approval. Generally, the dividend limit is equal to the current and preceding two years net income less dividends paid during the same period. However, dividend payments would be prohibited if the effect would cause the Bank's capital to be reduced below minimum capital requirements as discussed above. The Bank's retained earnings available for dividends was approximately \$2,321,000 at December 31, 2024.

**13. Dividend Reinvestment and Optional Cash Purchase Plan**

The Company has a Dividend Reinvestment and Optional Cash Purchase Plan (Plan) for its shareholders. The Plan is designed to provide the Company's stock at no transactional cost to its shareholders. Cash dividends paid to shareholders who are enrolled in the Plan plus voluntary cash deposits received are used to purchase shares either directly from the Company, from shares that become available in the open market or from the Company's previously acquired treasury stock. The Company has reserved 787,500 shares of its unissued common stock for issuance under the Plan as of December 31, 2023. In 2024, the Company increased the shares of its unissued common stock for issuance under the Plan by 500,000 shares for a total reserved total of 1,287,500 shares. Once these shares are issued, the Plan will terminate but there is no set termination date. Under Regulation A of the Securities Act of 1933, as amended, the Company may offer and sell up to \$20 million of eligible securities annually. The Company issued 25,803 shares of common stock in 2024 and 38,844 shares of common stock in 2023 directly from authorized but unissued shares of the Company, plus the Company sold 26,915 shares of treasury stock in 2024 and 13,156 shares of treasury stock in 2023 for a total of 52,718 and 52,000 shares in 2024 and 2023, respectively. As of December 31, 2024, there were 502,283 shares available for future issuance.
